

Year 6 Home Learning - Week Commencing 13/07/2020

Hello everyone,

It has been great seeing some of you again this week! I have been busy over the past two weeks speaking to your new high schools about your new classes. If you would like to discuss any concerns regarding high school, please don't hesitate to email or ring the school for more support.

lmills@moorside-academy.co.uk

National Oak Assemblies

<https://classroom.thenational.academy/assemblies/>

There is no new content on ONA this week but if you could look back at some of their old lessons and assemblies. You might even like to try learning some Spanish before you start high school in September.

Topic

In school this week we have been looking a little more into our topic Titanic. We have been looking at who was to blame and we are going to be watching the film at the end of the week. Try and find out some more about how the Titanic sank and you could even make your own fact file about the event.

Maths

We have also been looking at measurement conversions and have been busy using the 'sliding method' to convert. Have a go at the worksheet that I've attached on the website.
