

RISK ASSESSMENT FORM

PART A. ASSESSMENT DETAILS:

Area/task/activity: School opening arrangements during COVID-19 restrictions for SEPTEMBER 2020/2021

Location of activity: Moorside Community Primary Academy

Team/School name: Address & Contact details:	Moorside Community Primary Academy Back Lane Skelmersdale WN8-9EA	Name of person(s) undertaking assessment:	Richard Davis (Headteacher) Jane Lee (SBM) Anna Jameson (AHT) Rachel Russel (AHT)
		Signature(s):	Richard Davis Jane Lee Anna Jameson (AHT) Rachel Russel (AHT)
Line Manager/ Headteacher (Name/Title):	Richard Davis (Headteacher)	Date of assessment:	July 2020 Amended 3 rd September 2020. Amended 4 th January 2021. Amended 8 th January 2021. Amended 23 rd February 2021. Amended 12 th July 2021.
Signature:	Richard Davis	Planned review date:	Regularly.
How communicated to staff:	Email / Staff meeting / handbook / Paper copies.	Date communicated to staff:	July 2020. September 2020. January 2021x2. March 2021. July 2021.

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
Changes to official COVID19 guidance and advice	Employees, pupils, visitors, contractors, parents.	Potential spread of infectious disease	<ul style="list-style-type: none"> • School regularly refers to official advice from the DfE, PHE, H&S and HR; <ul style="list-style-type: none"> ○ COVID-19: guidance for education settings ○ COVID-19: maintaining educational provision ○ LCC Health & Safety COVID-19 web page ○ COVID-19 operational guidance ○ Guidance for full opening – schools (02/07/2020) • Headteacher/Senior Leadership Team keeps up to date with official COVID-19 Guidance and informs employees/school arrangements as required;
Impact of staffing levels on H&S roles and responsibilities and arrangements	Employees, pupils, visitors, contractors, parents	Potential spread of infectious disease, stress, injury or harm from accidents/incidents	<ul style="list-style-type: none"> • Employees at work, who are working together, have a discussion each morning to clarify key roles & responsibilities for the day, planned activities for pupils, essential employee tasks to be undertaken, etc. This will be socially distanced and led by each class teacher • Via normal whole staff communication methods, staff are made aware of: <ul style="list-style-type: none"> ○ who to report issues or concerns to ○ number of pupils, noting special needs, etc. ○ agreed times of pupil drop-off and collection. School will go back to NORMAL operating times in September. ○ first aid provision e.g. named first aider or appointed person ○ fire arrangements return to normal. ○ security/lock down arrangements ○ work tasks/activities to be undertaken that day ○ areas of the building that remain in use or have restricted use ○ any other relevant information • All employees have clear roles and responsibilities which are within their capabilities and are aware of how to raise any concerns; • Home testing kits (small in number) available to pupils/staff to take away if symptomatic. No testing over summer unless staff wish to do so. Tests not

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>provided by school. Staff can get from Pharmacy or online if they wish to do so.</p> <ul style="list-style-type: none"> • SLT to have focus on mental health and workload of all staff and children. • Employers and staff should always come together to resolve issues. Any concerns in respect of the controls should be raised initially with line management and trade union representatives and employers should recognise those concerns and give them proper consideration. If that does not resolve the issues, the concern can be raised with HSE.
Spread of COVID-19 virus via germs on surfaces and furniture within the building	Employees, pupils, visitors, contractors, parents, members of the public	Potential spread of infectious disease	<ul style="list-style-type: none"> • All employees, pupils and visitors are required to follow guidelines re washing hands for 20 seconds upon arrival on site and/or use the hand sanitiser at the point of entry; COVID-19 is an easy virus to remove on skin, this remains true for the new variants. • All employees and pupils wash their hands more frequently, particularly before eating and drinking, applying first aid, before and after playtime and after using the toilet; • Posters are displayed on general hand hygiene; children to wash hands as they enter building, regularly throughout the day, after visiting toilets and before and after eating; • Poster on cleaning and disinfection guidance is on display; • Pupils are reminded to avoid touching their faces with unwashed hands; • Everyone follows the Catch it, Bin it, Kill it guidance to catch coughs and sneezes in tissues and throw them in the bin immediately (hands to be washed immediately after disposal); • Tissues are readily available in the areas being used; • Pupils are reminded how to catch coughs and sneezes if a tissue is not readily available i.e. in the crook of the elbow rather than in the hands (Catch it, Bin it, Kill it);

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • Areas of the building that are in use are subject to frequent cleaning by employees and cleaning staff. Staff to use standard detergent and bleach. • Extra cleaning throughout the day and at dinner times; this in addition to normal cleaning. • Employees have been instructed on cleaning and sanitising requirements; • All key areas and surfaces are cleaned regularly during and after use. • Cleaning and disinfection of frequently touched objects and surfaces is carried out by employees e.g. door and window handles (although these will be kept open where appropriate), taps, desk/table tops, sports equipment, teaching & learning aids, computer equipment, etc.; • Good housekeeping is maintained at all times; • Limiting things coming into and out of school to only essential to learning items; these items still need to be cleaned; book bags, stationary, hats, lunch boxes and items children need to learn allowed in now. Resources can be shared between bubbles as long as they are wipe able and have been cleaned. 48 hours needed for wooden resources, 72 for plastics if not cleaned. • Messy play in EY — sand, mud and water, etc is all used under the guidance outlined by Gov.uk. • Waste bins are emptied at least twice daily and the contents disposed of safely; • Employees having to clean bodily fluids are aware of and implement the controls outlined in the establishment's Cleaning of Bodily Fluids risk assessment/ Intimate care policy; PPE MUST BE WORN WHEN CARRYING OUT THIS TASK including Medical Face Masks. PPE must be disposed of in lidded bins and hands washed/ sanitised after removal. Safe wearing of face covering requires cleaning of hands before and after touching and the safe storage in individual plastic bags between use. If they become damp they should be disposed of. Masks not needed at all in

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>any area, unless staff want to or if we are in large gatherings (Assemblies).</p> <ul style="list-style-type: none"> • A strict colour coding system is in place to reduce the risk of cross contamination; • PPE is provided for employees to wear during certain cleaning activities and must be worn as instructed during close contact with pupils and moving around the building e.g. gloves, aprons, etc.; • If necessary, the Headteacher will arrange for a deep clean/fogging to be carried out for whole site. • SLT will manage confirmed cases of COVID-19 amongst the local community and aim to contain any outbreak by following advice from local health protection team. • Children are to share toilet blocks, but toilets are to be cleaned regularly and children MUST follow hand washing protocols after each toilet visit. • Children allowed to mix in larger groups for specialist teaching (above the maximum double bubble). Bubbles removed from September unless Outbreak Management plan dictates. • Staff to avoid face to face contact and time spent within a 1m distance where possible. • Large gatherings restricted until further notice. Resume in September. • School will be provided with a number of testing kits. • Staggered starts/ends and timetable variations to avoid contacts still in place, as is the one-way system around school. One way system to stay in place and will be optional. • Staff and children encouraged to walk to and from school. • Uniform is in place. Children can come into school on PE days in kit. PE will be outside when possible, but can go on inside following system of controls (doors open, area for walking through coned out, smaller groups, windows open) and WLSR Risk Assessment followed through. Outdoor

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>PE should be prioritised. If children need to bring additional clothing, this is permitted.</p> <p>Note: For instances where it is necessary for a deep clean to be carried out following a suspected case of COVID-19 virus on site a deeper clean/fogging will be required in accordance with the guidance COVID-19: cleaning in non-healthcare settings.</p>
Spread of COVID-19 virus via air borne particles	Employees, pupils, visitors, contractors, parents, members of the public	Potential spread of infectious disease	<ul style="list-style-type: none"> ● Guidance on most up-to-date social Distancing MUST be adhered to at all times; Recognition that younger children will not be able to maintain social distancing and its acceptable for them not to distance within their group. Social distancing will be removed in September. ● DfE COVID-19 guidance on implementing social distancing in educational settings is reviewed regularly; ● Employees are socially distancing themselves from each other and parents/carers at all times, and as much as possible from pupils; maintaining the ideal distance of 2m wherever possible. ● Staff to remain in their bubbles and reminded to reduce contact with staff from other bubbles. Staff keeping distance from children and each other. Staff can operate across different year groups in order to deliver the curriculum, but must maintain social distance. This also applies to BC/ASC. Small, consistent groups of up to 15 will be in operation in BC/ASC. Support staff can be deployed to cover other classes under the direction of a teacher, adhering to social distancing. This is now for both Key Workers and Vulnerable (when requested). ● Schools can alter the way in which they deploy their staff and use existing staff more flexibly. Where support staff capacity is available, schools may consider using this to support catch-up provision or targeted interventions. Teaching assistants may also be deployed to lead groups or cover lessons, under the direction and supervision of a qualified, or nominated, teacher (under the Education (Specified Work) (England) Regulations

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>2012 for maintained schools and non-maintained special schools and in accordance with the freedoms provided under the funding agreement for academies). Any redeployments should not be at the expense of supporting pupils with SEND. Staffing to return to pre-COVID expectations.</p> <ul style="list-style-type: none"> ● Parents/carers will not enter the school unless absolutely necessary and, if they do need to enter the school, they will follow the strict hand sanitising and social distancing guidelines including wearing a face covering. ● Arrangements are in place for parents/carers to drop off and collect children at specified times, without physically entering the premises, in a one-way system and drop off with employee meeting the pupil at the school doors. Markings will guide parents when entering the premises with signs reminding them of social distancing. ● Pupils are instructed to socially distance themselves from employees and other pupils in class, at play and lunch times and this is supervised; ruling says 2m and not for less than 1m for longer than 15 minutes. Staff must maintain distance from pupils and other staff as 'much as possible.' ● Room layouts and table settings in class and other spaces used have been adjusted to allow for social distancing e.g. tables spaced out to the recommended distance, with all desks facing forwards and children sitting side by side wherever possible. Unnecessary furniture removed from classrooms. ● Rooms will be well ventilated with windows open as much as possible. Doors to be kept open where appropriate to reduce touching surfaces. ● School car park not be used during school hours (8:30am-3:30pm), unless in an emergency or unavoidable, to ensure parents/children have as much space as possible to socially distance when arriving or leaving the school grounds. ● Only one parent encouraged to drop off/collect children. Parents of Year

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>5/6 children encouraged to allow them to walk part of the journey themselves, if deemed safe to do so by the parent.</p> <ul style="list-style-type: none"> • Any child showing symptoms of COVID-19 or any member of their household must remain at home until they are tested. • School will actively engage with the 'NHS Track and Trace' programme and liaise with Lancashire's Director of Public Health as and when appropriate (e.g. 2 positive tested cases within a 2-week period Several cases within 14 days from September). Confirmed cases to be reported to the Local Health Protection Team. Schools to keep records of bubbles (staff and children) and close contact that happens between children and staff in different groups. NHS Test and Trace to take contact tracing from Septmebrt and not school. • Out of school representations from staff/ all visits/visitors need clearing by Headteacher. This is to reduce the amounts of contacts. Educational visits suspended back on but need to be insured in case of cancellations. RA need to be passed by HT and up-to-date guidance regarding Gov.uk's COVID-19 needs to be considered. • Staff and children encouraged not to touch each other. This may not be possible for younger children and children with complex needs so PPE may need to be considered by individuals. • Staff to use the staffroom/meeting room (break rooms) for less time and socially distance. Break time durations stay the same. Staff must maintain distances during these times. Break/dinners must not be taken in the Sunshine Room. Entry to the school office is limited to SLT/Office staff only. • Support staff supporting SEND to provide interventions as usual. • Air conditioning now fine to use following the guidance for ventilation and air conditioning documentation. Windows for ventilation still crucial. When inclement weather is present it is crucial that windows are open for 15 minutes before and after children have been in the room.

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
Employee or pupil displaying signs of COVID-19 whilst in school	Employees, pupils, visitors, contractors, parents, members of the public	Potential spread of infectious disease	<ul style="list-style-type: none"> • Employees are aware of the virus symptoms and are vigilant in reporting all concerns to the responsible person who will reference DfE COVID-19: guidance for education settings for advice on dealing with the situation; • Employees who have assisted someone who has taken ill with COVID-19 symptoms will wash their hands for 20 seconds, they do not need to go home and get tested unless they display the symptoms themselves, the symptomatic person tests positive, they are requested by test and trace or have tested positive; • Employees showing symptoms are sent home and reminded to self-isolate following current government guidance for staying at home; • If a pupil displays symptoms they will be placed in the ventilated medical room until they can be collected, whilst being mindful of individual pupils' needs; The door needs to be closed over where possible. • If a pupil, who is showing symptoms, is awaiting collection, they should be left in a room on their own if possible and safe to do so. A window should be opened for fresh air ventilation if possible. Appropriate PPE should also be used if close contact is necessary, further information on this can be found in the use of PPE in education, childcare and children's social care settings guidance. Any rooms they use should be cleaned after they have left. • If an individual (adult or child) showing COVID-19 symptoms, needs to use the bathroom while waiting to go home, they will use the medical room if possible. The medical room will then be cleaned and disinfected by a staff member and/or cleaner before being used by anyone else; • 999 is called if anyone is seriously ill. • The following expectations and protocol for what should happen if a child or member of staff develop symptoms of Covid-19, in school or at home, will be put in place: Everyone over the age of 5 years old, who

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>is displaying Anyone with symptoms, is now able to be tested and therefore a test would need to be arranged immediately, as a matter of urgency. All adults and children who have been in the related group/area would need to go home when the result of the test comes back as positive and will then they be required to remain at home for 10 days/be tested. Children under 18 will no longer need to isolate if they are in close contact to a positive case or staff they have had two vaccinations. If staff help people with symptoms they do NOT need to go home unless they develop symptoms. or a positive test result comes back. Children/adults who test negative and feel well, without any symptoms can return to school. However, should it be positive then they would all need to self-isolate for 10 days, depending on guidance at the time, and the rooms used by this group will be deep cleaned. Should it be deemed necessary, then the whole school community may be asked to follow this protocol. They can return to school 10 days after testing positive as long as they do not have a temperature. Symptomatic individuals should not use public transport if they have any symptoms.</p> <ul style="list-style-type: none"> All staff taking care of a pupil with symptoms will wear PPE provided by school: facemask, aprons and gloves. Should the child display signs of possible vomiting, etc. then plastic face visors will be worn. Contain any outbreak by following local/national advice from our health counterparts, including any 'local lockdowns.' Clinically Extremely Vulnerable (CEV) staff to not be in school. Those who live with clinically extremely vulnerable can still attend work, where home working is not possible. They should ensure they maintain good prevention practice in the workplace and home settings. If staff are concerned around CEV or Clinically Vulnerable (CV) it is vital to speak to SLT as soon as possible.
Need for Personal Protective Equipment	Employees, pupils, visitors, contractors,	Potential spread of infectious disease	<ul style="list-style-type: none"> Employees are aware of the need to use the appropriate PPE when completing specific tasks e.g. cleaning; intimate care and when 1m+

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
(PPE)	parents, members of the public		<p>cannot be adhered to for a period of 15 minutes or more.</p> <ul style="list-style-type: none"> • In primary schools, we recommend that face coverings should be worn by staff and adult visitors in situations where social distancing between adults is not possible (for example, when moving around in corridors and communal areas). Children in primary school do not need to wear a face covering. Masks can be worn by any staff if they wish, at any time. • Insufficient levels of PPE should be reported to the most senior member of staff; • PPE is provided as detailed in task risk assessments e.g. for the Cleaning Up of Bodily Fluids. Adults who work with children with complex needs, for example those who spit uncontrollably, need to seek out SLT to discuss extra /alternative PPE equipment. • Lateral testing will be introduced for staff to be tested twice a week in Spring term 2020. This will continue from summer term 2021. Confirmatory PCR tests still need to be completed if anyone tests positive on a LFT or if they have symptoms. • If anyone tests positive whilst not experiencing symptoms but develop symptoms during the isolation period, they must restart the 10 day isolation period from the day they developed symptoms.
Reduced first aid provision	All building occupants	Untreated injuries	<ul style="list-style-type: none"> • Daily consideration is given to the reduced level of first aid provision on site; • First Aiders are aware of the Government guidance for first responders; • Employees working in the school are kept informed of the first aid arrangements via the usual signage; • As a minimum an Appointed Person will be delegated to take charge in an emergency situation; • In the event of an incident requiring first aid, should there be no nominated first aider available, the Appointed Person can seek advice from the NHS

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>by calling 111 and asking for medical advice, or call the emergency services on 999 to request an ambulance;</p> <ul style="list-style-type: none"> For instances where first aid qualifications are due for renewal and may expire during the current crisis i.e. due for renewal on or after 16 March 2020, the HSE has announced a 3-month extension to the validity of all first aid certificates, including Paediatric First Aid.
Reduced fire and lock-down arrangements	All building occupants	Burns, smoke inhalation, fire related injuries, death, injuries relating to violence/aggression	<ul style="list-style-type: none"> Employees are made aware of the current fire and lock-down procedures, including amendments to normal working practices due to the current limited resources and building use, etc.; Daily checks are made to ensure all required fire doors are kept unlocked and will be available in the event of an emergency; In the event of a fire alarm the Headteacher/SLT will- <ul style="list-style-type: none"> liaise with the fire officer and report any concerns e.g. areas of a building that may not have been checked; to act as Fire Wardens, take out the register and emergency grab bag. CHILDREN WILL LEAVE BUILDING, AS PER POLICY, VIA CLOSEST EXIT. The revised fire exit plans are clearly displayed in each room on blue paper. <p>In the event of a lock-down the Headteacher/SLT is-</p> <ul style="list-style-type: none"> to call/liaise with the Police. to lead pupils to a 'safe area' depending upon the type of security threat/lock-down. social distancing rules will apply at all times unless there is an imminent risk to life.
Reduced premises inspections, tests, servicing and maintenance	All building occupants	Accidents or incidents resulting in injury, occupational disease, or a risk to	<ul style="list-style-type: none"> Premises management inspections, testing and servicing of plant, equipment, etc. are kept up-to-date for all parts of the building that remain in use e.g.: <ul style="list-style-type: none"> Fire Checks: weekly fire alarm checks continue to be made and

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
		health e.g. electrocution, fire, legionellosis, asbestosis	<p>recorded for occupied parts of the building. The same principle applies to emergency lighting, fire extinguishers etc.</p> <ul style="list-style-type: none"> ○ <u>Asbestos inspections</u>: undertaken on any areas of the building containing asbestos which remain open. If there is no prospect of areas containing asbestos being disturbed they will be safely left until the school fully reopens, at which point checks will be made as part of the reopening process. ○ <u>Legionella/Water hygiene</u>: weekly flushing regimes will continue; prior to undertaking the flushing regime, the domestic hot water plant will be switched on and fully operational to ensure water is stored above 60 °C for at least 1 hour prior to commencing the weekly flushing regime to sterilize the hot water system and reduce the proliferation of legionella bacteria. ○ <u>Contractor servicing and maintenance</u>: servicing, etc., will continue wherever possible (see section on Contractors and visitors to the premises). The school's property consultant will be contacted for advice prior to reopening areas of the school where it has not been possible to keep these up-to-date. ○ <u>Testing of electrical items (PAT)</u>: PAT testing will continue where possible. If not possible, the school will put local controls in place e.g. by undertaking pre-use visual checks for signs or damage or scorching, removing any damaged or faulty equipment from use, switching off and unplugging all equipment after use etc. <ul style="list-style-type: none"> ● Records of all testing and checks will be kept; ● Records will also be kept of those areas that have not been checked and why e.g. due to building closure, reduced resource, etc. These areas will be fully checked before reopening. ● Visits and inductions must happen out of school hours where possible.
Contractors and visitors to	Employees, pupils,	Potential spread of	<ul style="list-style-type: none"> ● Visitors to site are limited to essential persons only; essential to the

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
site	visitors, contractors, parents, members of the public	infectious disease	<p>teaching, health, wellbeing and safeguarding of our children.</p> <ul style="list-style-type: none"> • All visitors will follow the Government's guidance and the school's strict hygiene and social distancing rules e.g. hand washing/sanitisation upon entry; • Contractors must obtain permission before attending site; • Contractors will wear appropriate PPE as determined by their employer, however they may be asked to wear additional PPE (provided by the school) upon arrival e.g. gloves, mask, overalls, shoe covers, etc. Contractors will comply with any additional PPE or hygiene requirements made by the school prior to entry; • Contractors will keep the time spent on site to a minimum and will make all efforts to only attend site to carry out work during periods of reduced occupation; • Alternative routes around or through the premises will be used as instructed by the school e.g. the school may usher the contractor through a fire escape door to access an adjacent room, rather than walking them through the school to reach their destination; • ITT to continue as normal, ALL other placements need clearing by Headteacher. Teacher trainees only until further notice. Volunteers may be used to support the work of the school. • Record of all visitors kept by the office and office staff to sign visitors in, under the digression of SLT.
Homeworking with DSE	Employees and members of their household	Development or worsening of existing musculoskeletal injuries or health conditions	<ul style="list-style-type: none"> • Employees are aware of the current Government guidance regarding self-isolation if they are in a 'high risk' category due to a health condition, or if they or any members of their household display symptoms of COVID-19. • Employees will be required to work from home where possible, in line with the School's needs, if they are not able to attend work to undertake their normal duties. This will usually involve the use of Display Screen

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<p>Equipment (DSE) in the form of mobile laptops, yogas, tablets, phones, etc.;</p> <ul style="list-style-type: none"> • Homeworkers can refresh their DSE knowledge if they feel this is necessary by undertaking the DSE eLearning on Astute accessible on the Schools Portal; • Where possible and only when requested, employees will be provided with ancillary equipment to allow them to attain good working posture whilst using DSE at home e.g. a separate keyboard, mouse, laptop riser; • Employees take regular breaks e.g. if a 'good' homeworking set-up is achieved a 5-minute break taken every hour is adequate. If a good set-up cannot be achieved, then more frequent breaks must be taken e.g. 5 minutes in every 25 minutes (or in every 15 minutes if the employee is experiencing any discomfort); • Employees will report any health issues they experience which they believe is related to their homeworking set-up to their line manager as soon as possible so that further action can be taken; • DSE 'exercises' should be undertaken to avoid static postures at the workstation; • Employees are required to watch: <ul style="list-style-type: none"> ○ The HSE video on temporary working at home – workstation setup; and, if they continue to experience any issues: ○ the Posturite webinar – Working from home – quick fixes; Note: Any queries arising from watching this webinar must be addressed to the LCC Health, Safety & Quality Team on Tel: 01772 538877 or email HS&Q Team and NOT to Posturite; • Good housekeeping and cable management must be implemented whilst working at home; cables must not present tripping hazards to self or other family members; • Employees are reminded keep confidential or personal sensitive

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

			<p>information secure in line with GDPR rules whilst working from home;</p> <ul style="list-style-type: none"> • Employees are aware of other sources of useful H&S information to assist homeworking arrangements such as: <ul style="list-style-type: none"> ○ Display Screen Equipment guidance and exercise sheets (scroll down to DSE Forms, templates & guidance section); ○ Agile Working ○ Employee Wellbeing ○ H&S COVID-19 web page (section on 'How to support employees working from home') <p>Remote H&S support is available via the Duty Officer by Tel: 01772 538877 or email HS&Q Team at: health.safety@lancashire.gov.uk</p>
Employee isolation.	Employees	Increased levels of stress/anxiety and lower than normal levels of wellbeing	<ul style="list-style-type: none"> • The Headteacher, or other senior leaders, will keep in regular contact with employees to monitor the working arrangements and offer support and advice where necessary; • CEV (Clinically Extremely Vulnerable) staff are advised not to attend the workplace. Staff who are CEV will previously have received a letter from the NHS or their GP telling them this (no new letter is required), and there is guidance for everyone in this group. It provides advice on what additional measures individuals in this group can take. Employers should talk to their staff about how they will be supported, including to work from home—SPEAK TO HEADTAECHEER IF YOU FEEL YOU ARE IN THIS CATEGORY. • Pregnant women are considered CV (Clinically Vulnerable). In some cases pregnant women may also have other health conditions that mean they are considered CEV, where the advice for clinically extremely vulnerable staff will apply. Current guidance will be followed and a separate Pregnancy Risk Assessment will be completed. • Communication with employees is accommodated via skype/zoom meetings, emails, text, phone calls, use of a shared drive on the LCC network, the Schools Portal, etc.;

PART B. HAZARD IDENTIFICATION AND CONTROL MEASURES:

List of significant hazards (something with the potential to cause harm)	Who might be harmed	Type of harm	Existing controls (actions already taken to control the risk - include procedure for the task/activity where these are specified)
			<ul style="list-style-type: none"> • There is flexibility in working hours and the amount of work completed by employees from home due to the current exceptional circumstances where employees may be looking after their own children at home or caring for other vulnerable family members; • Employees are able to make contact with a colleague or manager for advice and support, or just for reassurance, during the normal working day; • Employees are made aware of sources of information that will assist employee wellbeing such as: <ul style="list-style-type: none"> ○ Employee Wellbeing ○ MIND web site ○ H&S COVID-19 web page

This general risk assessment will apply to this area/task/activity in most schools providing the control measures described are in operation and there are no further local significant hazards. If it does not fully apply and further control measures are required, please complete the Action Plan at Part C. If it fully applies, please sign below. I certify that the risk assessment above fully applies to the area/task/activity under assessment in Moorside Community Primary Academy.
